

Vaccine Freezer Launched in Turkey

Our group company, Öztiryakiler Madeni Eşya Sanayi ve Ticaret Anonim Şirketi, launched vaccine freezers for Europe and the Middle East in October 2021.

The newly developed vaccine freezer is equipped with a freezing function of -40°C to -86°C , and can store Pfizer-Biontech vaccines. It has obtained the CE mark, which certifies that the product meets the requirements of European safety standards, and ISO 13485 (international standard for quality management systems for medical devices). It does not require power supply installation, and is equipped with a monitor screen for easy temperature management, making it easy to use in medical situation.

Öztiryakiler has been selling this product in Turkey since April 2021 in order to promote vaccination, but in response to inquiries from abroad, Öztiryakiler has started full-scale sales to neighboring countries. They also exhibited this product at the Host Milano exhibition held in Milan, Italy from October 22 to 26, 2021.

Öztiryakiler supplies a wide range of kitchen equipment, and also offers the total kitchen project not only in Turkey but also abroad, mainly in Europe and the Middle East and is steadily expanding its business even under the COVID-19 pandemic. We will continue to develop and offer products that meet the needs of countries around the world.

7919.04ULT.00、7919.04ULT.01

7919.04ULT.00 Inside the freezer

Product Specifications	
Model	7919.04ULT.00
External dimensions	770(W) X 931(D) X 1960(H)
Current (A)	6.5 Amp
Power supply	220-240 V 50 Hz
Effective capacity	320L
Refrigerant	R404a · R508B
Temp. controller	Electronic controller
Operating condition	19°C to 25°C
Energy consumption	1.1 kW/h
Safe temperature range	-40°C to -86 °C
Vaccine storage capacity	140K

Product Specifications	
Model	7919.04ULT.01
External dimensions	770(W) X 931(D) X 1302(H)
Current (A)	5.0 Amp
Power supply	220-240 V 50 Hz
Effective capacity	150L
Refrigerant	R404a · R508B
Temp. controller	Electronic controller
Operating condition	19°C to 25°C
Energy consumption	0.8 kW/h
Safe temperature range	-40°C to -86 °C
Vaccine storage capacity	60K
