

Hoshizaki America earns Kitchen Innovation® Award for 5th year in a row

~Improved control on cooling efficiency of Pizza Prep Table Refrigerator~

We are proud to announce that HOSHIZAKI AMERICA, INC. (Hoshizaki America), a subsidiary company of Hoshizaki Corporation, has received the 2022 Kitchen Innovation® Award by the National Restaurant Association for the fifth years in a row, thanks to new Pizza Prep Table Refrigerator with functions of the uniformed distribution of cooling air, and automation of temperature control.

Kitchen Innovation® Award is presented to products recognized for significant contributions in areas such as automation, efficiency, safety improvements, sustainability, waste solutions, and more. Hoshizaki America is one of the eleven awarded manufacturers.

<u>Hoshizaki America’s History of Kitchen Innovation® Award</u>	
Awarded year	Series/products name
2018	Ice Machine - KM-Edge Series
2019	MOD water
2020	Sphere Ice Maker
2021	2by2 Ice Maker

The Pizza Prep Table Refrigerator can store pizza ingredients such as onion and green pepper in a rail on top of the refrigerator, allowing the ingredients to be efficiently placed on pizza dough on the work-top.

New model has mainly three unique functions as follows:

① **Optimal Airflow in Rail**

Back to front air flow surrounds each pan for consistent cooling.

② **Night/Day Mode**

When lid is open, set point drops to keep food cool in rail; when lid is closed, set point returns to normal so food can stay in rail overnight without freezing.

③ **Dual Controller System**

For ideal temperature in both rail and cabinet; adjustable for every operation.

With those new functions, we realized to store ingredients with freshness.

Hoshizaki America opened its ice maker manufacturing plant in Peachtree City, Georgia in 1986, and opened its refrigerator plant in Griffin, Georgia in 2001. Hoshizaki Group will meet diversified demands of “Eating” by local manufacturing and local sales.
